

MAPADOC saves time and money!

MAPADOC by SWK Technologies, Inc. is a fully integrated, easy-to-use electronic data interchange (EDI) solution for Sage ERP X3 that will:

- Dramatically cut data entry time and costs by eliminating duplicate entry
- Improve communication with vendors and customers
- Integrate seamlessly with Sage ERP X3

MAPADOC offers power and flexibility!

When trading partners institute new rules, you will be ready. MAPADOC provides a user-friendly way to map to/from Sage ERP X3 fields, preset variables and user defined fields (UDFs). You can assign values and perform pre-processing and post-processing data format conversions. Available cross-references include item, ship to, ship mode and general.

MAPADOC is a Complete Solution

Inbound Purchase Order (850) Creation

- Create multiple sales orders from one purchase order
- Easily run exception reports
- Validate incoming data against existing data fields
- Option to use EDI price or X3 price per trading partner
- Unattended processing
- Utility to delete range of sales orders
- Assign different Bill-To's based on Ship-To on PO

Outbound Invoice (810) Creation

- Send credit and/or debit memos via EDI
- Option to consolidate lines on invoice by item ID
- Option to automatically select invoices to be sent during invoice posting
- Option to skip zero dollar lines
- Ability to reselect and resend invoices
- Unattended processing
- Validate data before EDI Invoices are created
- Exception reporting to detail issues encountered and transactions created

INTEGRATED DOCUMENTS

Inbound Documents

810 - Invoice
850 - Purchase Order
945 - Warehouse Shipping Advice

Outbound Documents

810 - Invoice
850 - Purchase Order
855 - Purchase Order Acknowledgement
